RECOGNIZE TO RECOG

BASIC CARDIAC ARREST/AED STEPS

STEP 1

CALL 9-1-1

STEP 2

DO HANDS-ONLY CPR (CHEST COMPRESSIONS)

- Push hard and fast on the chest
- 100 times per minute, 2 inches deep
- The 9-1-1 dispatchers can remind you how to do it if you don't know how

STEP 3

FIND AND USE AN AED (SEND SOMEONE TO FIND ONE)

100 90 80 70 60 50 40 30 20 10 0 1 2 3 4 5 6 7 8 9

MINUTES TO DEFIBRILLATION

CHANCE OF SURVIVAL FROM CARDIAC ARREST

TRADITIONAL CPR VS. HANDS-ONLY CPR

TRADITIONAL CPR

- 1. Gently shake victim to check if conscious
- 2. Do mouth-to-mouth ventilations
- 3. Do chest compressions
- 4. Alternate cycles of mouth-to-mouth ventilations and chest compressions

Hard to remember, perform, teach, requires mouth-tomouth contact and is useful for victims younger than 12 years old and drowning

HANDS-ONLY CPR

- 1. CHECK if victim is conscious
- 2. CALL 9-1-1 if not conscious
- 3. COMPRESS Do Hands-Only CPR
- 4. NO mouth-to-mouth ventilation is needed

Easy to remember, perform, teach, does NOT require mouth-to-mouth contact and is useful for adults and non-drowning victims

AUTOMATED EXTERNAL DEFIBRILLATOR (AED)

An AED

- Restarts the heart with a shock
- Talks to you! And tells you what to do
- Will not deliver an unnecessary shock
- If used correctly, it can save a life
- SAFE and EASY to use

How to use an AED:

- 1. Open the AED unit
- 2. Turn the AED unit ON
- 3. Listen to the voice prompts
- 4. Take out the Pads
- 5. Peel the pads off the lining
- 6. Place the pads on the patient's base skin exactly as shown on each pad
- 7. Follow the voice instructions

AED TRAINING RECOMMENDATIONS

- Implement a CPR and AED educational training program in your club
- Consider annual training for 10 years old and older
- Show or send the training video to all of the players and coaches
- Follow your state laws on AED requirements
- Consider having an on-site AED that is visible and accessible at all times
- Create a culture of safety around cardiac health
